WHO WE ARE

ROOTED IN EXPERIENCE. DRIVEN BY A GREENER TOMORROW.

Thummala Energy Private Limited is a rapidly growing infrastructure and renewable energy organisation headquartered in Anantapur, Andhra Pradesh. Built upon the robust foundation and deep industry expertise established at **ME Developers**, we deliver end-to-end EPC solutions, land acquisition and project implementation for power developers across South India.

As ME Developers, our promoter team executed and managed more than 610 MW of solar and wind capacity for developers including Axis Energy, ReNew Power and BC Jindal — from raw land to an energised switchyard.

OUR VISION

To be the most trusted partner in India's transition to sustainable energy by delivering world-class renewable power projects, innovative land procurement solutions and lasting client relationships.

OUR MISSION

We accept responsibility for our clients' challenges, practise strong corporate governance and strive for continuous improvement in everything we deliver.

CORE EXPERTISE

End-to-End EPC

Proven engineering, procurement and construction for large-scale solar and wind projects.

Comprehensive Implementation

Land acquisition, liaisoning, government permits, clearances and power evacuation infrastructure.

Strategic Market Advisory

Guidance backed by an in-house land database, market research and local intelligence.

Associative Network

Partner firms providing skilled manpower and heavy machinery to overcome industry bottlenecks.

> **"Quality is never an accident; it is the result of high intention, sincere effort, and skilful execution."**

WHAT WE DO

ONE PARTNER FOR EVERY STAGE.

SOLAR EPC

Engineering, procurement and construction of ground-mounted solar plants — DGPS survey, pile marking, augering, module fixing, cabling, inverters, transformers and commissioning.

WIND ENERGY

Wind-site identification, land lease/purchase for WTG locations, access roads, crane pads and stock-point development across Kurnool, Ballari and Davangere.

LAND ACQUISITION

Bulk aggregation of contiguous, clear-title land — backed by an in-house database, title due diligence and transparent documentation.

LIAISONING & APPROVALS

Land conversion, revenue approvals (MRO & RDO), statutory clearances and right-of-way for evacuation lines.

POWER EVACUATION

LT & HT panels, three-phase transformers, switchyards and SCADA control rooms for reliable grid connectivity.

CIVIL INFRASTRUCTURE

Internal roads, storm-water drains, precast compound walls and control buildings — delivered to schedule.

PROJECT DEVELOPMENT

Site selection and feasibility inputs, land aggregation, statutory approvals, grid-connectivity coordination and EPC planning — taking projects from concept to a construction-ready site.

INSTALLATION OF SOLAR PANELS

TESTING & COMMISSIONING

PERFORMANCE MONITORING

MAINTENANCE & SUPPORT

TRACK RECORD

TRACK RECORD (AS ME DEVELOPERS)

CLIENT / DEVELOPER	CAPACITY	TYPE	LOCATION
Shiridi Sai Solar Park	300 MW	SOLAR	N.P. Kunta, Andhra Pradesh
BC Jindal	100 MW	WIND	Kotturu – Jagalur, Ballari, Karnataka
Axis Energy	75 MW	WIND	Tuggali Mandal (Maddikera), Kurnool, AP
ReNew Power	75 MW	WIND	Paravelli, Andhra Pradesh
ReNew Power	30 MW	WIND	Kudligi, Ballari District, Karnataka
Top View (Axis group)	20 WTGs	WIND	Andhra Pradesh — 20 turbines in 8 months
Ray Forge	30 MW	SOLAR	Boppepalli, Tadipatri, Andhra Pradesh

Projects and developer names are the historical execution track record of the Thummala Energy promoter team under the ME Developers banner; they do not imply any current engagement or endorsement.

OPERATIONAL METHODOLOGY

01
IDENTIFY & EVALUATE
Site evaluation with in-house data and regional intelligence.

02
PROCURE & APPROVE
Land acquisition, liaisoning and every permit — without delays.

03
ENGINEER & BUILD
Manpower, machinery and EPC for plant and evacuation.

04
DELIVER & SUPPORT
On-time commissioning and continuous support.

LET'S POWER YOUR NEXT PROJECT
